DETAILED ACTION

Allowable Subject Matter

1. Claim 82-87 allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art of record and to the examiner's knowledge does not teach or render obvious, at least to the skilled artisan, the instant invention regarding a method of forming a low electrical resistance metal silicide particularly characterized in claim 82 by the limitation of depositing a metal-containing layer directly against a metal-enriched metal silicide, wherein the metal of the metal-containing layer is predominately a different metal than the metal of the metal-enriched metal silicide. Claims 83-87 depend on claim 82.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
